

Tech Stack

Software

- Tableau Public
- Microsoft Excel
- Microsoft Word
- GitHub

Programming / Query Language

- SQL (for data preparation, if required)

Dataset

- Food Ordering Dataset

Operating System

- Windows 10/11

Version Control

- GitHub

Visualization Techniques

- Bar Charts
- Line Charts
- Pie Charts
- Maps
- KPI Cards
- Filters
- Parameters
- Interactive Dashboards

The selected technology stack enables efficient data preparation, visualization, project documentation, and version control. Tableau provides interactive dashboards, Excel is used for data preparation, Word is used for documentation, and GitHub is used to store and share the complete project.
